

i-tec USB 3.0 Metal HUB 4 Port with individual On/Off Switches

i-tec USB 3.0 Metal HUB 4 Port with individual On/Off Switches

PRODUCT DESCRIPTION

Small but handy USB hub for all those struggling with insufficient USB ports on their PC or laptop. Its main advantage is the ability to turn the individual USB 3.0 ports on and off, allowing the hub to dedicate maximum speed and charging output to the active ports. You can also connect the hub to a power adapter with output of up to 10 W*, which will allow you to use, for example, several HDDs or SSDs at the same time or charge your phone or tablet. Using the hub is simple – just connect it to a USB port on your computer and you're done – drivers will be installed automatically by the system.

- 4 x USB 3.0 port (data transmission speed of up to 5 Gbps)
- Ability to turn individual ports on and off
- Option to use an external power adapter with output of up to 10 W*
- When used with a power adapter, the hub is capable of BC 1.2 quick charging

* Not included

PRODUCT FEATURES

- 1x integrated USB 3.0 cable for connecting to a device
- 1x microUSB for connecting the hub's secondary power supply of up to 10 W (5 V 2 A)
- 4x USB 3.0 port with quickcharging support (BC 1.2)
- 4x On/Off button for USB ports
- LED indication (blue LEDs)
- OS: Windows 10, macOS X, Linux, Android, Chrome OS
- Product dimensions: 103 x 31 x 10 mm
- Product weight: 41 g

Hardware requirements:

- Device with a free USB-A port
